

Material Safety Data Sheet

Section 01. Product Name: Texolube PE

INGREDIENT:	CAS #	CONCENTRATION:
Oxidized Wax	68447-17-8	15%
Nonionic Surfactant AT-25 (Powder)	68439-49-6	4%
Linear Alkyl benzene	67774-74-7	5%
Caustic Potash (Potassium Hydro-Oxide)	1310-58-3	4.5%
Water	7732-18-5	71.5%

Section 02. Identification of the material and supplier

Recommended Use : Fabric Finishing Product
 Supplier : U.S. Corporation
 Address : Plot # SA/13/A, Sector # 3 North Karachi Industrial Area, Karachi-Pakistan
 Tel : 03002463978 / 03112568311
 E-mail : info@usccorporation.net.pk, usman@usccorporation.net.pk

Section 03. Hazards identification

Eye contact : May cause eye irritation
 In case of discomfort consult a physician

Section 04. Composition/information

Bland of Oxidized Polyethylene & Surfactant

Section 05. First aid measures

After contact with skin

Immediately flush skin with plenty of water while removing contaminated clothing.

After contact with eyes

Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists

After inhalation

< Not Relevant >

Section 06 - Fire fighting measures

Extinguish media

Gases and special measures < Not Known >

Section 07 - Accidental release measures

Avoid contact with skin and eyes. Spillage to be removed with sand/or sawdust. Don't allow the product to enter drainage system

Section 08 - Handling and storage

Further info on storage conditions

Store in original container. Keep container closed.

Section 09 - Exposure controls / personal protection

Personal Protective Equipment:

The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors., Use goggles and plastic gloves. Mask may be worn but is not necessary

Wear overalls, chemical goggles and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

Section 10 - Physical and chemical properties

Color	:	Milky White
Odor	:	Slight -- not specific.
pH PH (10% De-ionized water sol.)	:	approx. 8±1
Solubility in water	:	Good in normal tap water
Flash Point	:	No flash point up to 100 °C

Section 11 - Stability and reactivity

No hazardous decomposition product if stored and handled according to recommendation

Section 12 - Toxicological information

LD50/oral/rat: >400 mg/Kg Primary Skin Irritation, Non irritating

Section 13 - Ecological information

All surfactants in this product are more than 90% biodegradable

Section 14 - Disposal considerations

Must be dumped in accordance with local regulations

Section 15 - Transport information

Safe. Not a hazardous product.

Section 16 - Regulatory information

Not subject to labeling.

Section 17 - Other information

This information is based on our existing knowledge. It relates to the specifications of product being delivered. We do not guarantee any particular property other than safety requirements mentioned, further, don't accept any accidental claims
